## Profile of the company

Getty Images offers you 24/7 access to the broadest range of photography, illustration and film from the best collections, across a wide range of subject matter, pricing and exclusivity. Trust Getty Images to be your first source for both original and computer-generated film imagery.

At [gettyimages.com/film](http://gettyimages.com/film), you will find an unrivaled wealth of high-quality film clips in the industry's largest collection. Our comprehensive site allows you to search through more clips, purchase broadcast-quality footage and download high-resolution files easily – improvements that can add premium value to your production and help you save time and money.

From Oscar-winning motion pictures to Cannes International Advertising Festival commercials to streaming video on corporate sites, Getty Images film footage is widely used across advertising, feature films, corporate communications, new media markets and television. Regardless of the industry or medium, Getty Images film customers use our footage and services to optimize efficiency, inspiration, time, budget and creativity.

Getty Images film collections consist of rights-managed footage from Image Bank Film, Archive Films and

Universal Studios, and royalty-free footage from Photodisc, Artbeats, Digital Vision, Rubberball Productions, Triangle Images, Rocketclips and Redhot Footage. Experience the full spectrum of our film offering. Go to [gettyimages.com/film](http://gettyimages.com/film) now.
